THE CAUSES OF ERRORS IN DIRECTION FINDING. [1963] [21]p. (tables omitted).
Order from SLA $2.60 63-14432

Trans. of [Hochfrequenztechnik und Elektroakustik (Germany) 1923, v. 21, p. 77-100].

DESCRIPTORS: *Direction finding, *Errors, Loop antennas, Direction finding signals, Mathematical analysis.

The directional properties of a loop antenna under the simultaneous effect of two wave beams of the same frequency but different direction, strength and phase is mathematically analyzed. The results of this investigation show how the observed errors in bearings, and poor minimum can be easily explained entirely on the basis of the simultaneous influence of two waves coming by different paths from the same transmitter.
